

Nectarines

Variety		Harvested	Description
Yellow Flesh			
Fantasia		August - September	Fantasia nectarines are sweet, tangy, juicy and freestone. Fruit is large and yellow with a red blush.
Firebrite		August	Medium to large nectarines that are sweet, juicy, and flavorful. Firebrite nectarines are semi-cling.
Flavortop		August	Flavortop nectarines have golden skin with a red blush and are known for their outstanding flavor. Perfect for fresh eating as well as baking. Flesh is freestone.
Independence		July - August	Bright candy red skin with a sweet, tangy and juicy flesh that is freestone.
Mericrest		August	A particularly hardy nectarine variety, that ripens later in the season. Flesh is firm, tangy and flavorful.
Ovation		August	Bright cherry red skin with a juicy sweet and flavorful flesh that is lower in acid.
Red Globe		August	Red Globe have an exceptional flavor that is rich, sweet, and tangy. The flesh is firm and juicy with an almost jammy quality. An all around favorite for both fresh eating and cooking. The flesh is freestone.
Sunglo		August	Sunglo nectarines have a striking red skin with a yellow blush and a flesh that is firm, smooth, flavorful and freestone. These are perfect for both fresh eating and preserving.
Honey Blaze		August	A large semi-cling nectarine that is firm, sweet and low-acid.
White Flesh			
Arctic Glo		Late July - August	Exceptionally juicy and flavorful, Arctic Glo has a white flesh that is often streaked with pink. Flavor is bright, tangy and floral. A staff favorite! This is our first nectarine variety to ripen each season; flesh is clingstone.
Crimson Snow		Late July - August	Exceptionally sweet and juicy, Crimson Snow has a dark pink skin and a bright white flesh that is freestone. Fruit tends to be a bit smaller in size.
Emeraude		August	A sweet, flavorful, low acid nectarine that is freestone and firm fleshed. Emeraude was developed in southern France by the Riviera Breeding Program.
Zephyr		August	A freestone nectarine with a bright white flesh with a red blush around the pit. Its flesh is aromatic, firm and sweet.
SpiceZee		August	SpiceZee is a Nectaplum, an interspecific white fleshed nectarine that is one-eighth plum. Its flesh is firm, meaty and juicy with a very sweet and fruity flavor.
